

interactive

IMT touchpoint cabinet and complementary storage towers.

Our intuitive whiteboard from SMART Technologies enables users to write, mark up and save information with a single finger touch or stroke of the pencil tool. Touch controls switch between multiple functions and applications, including interactive whiteboard software, laptop interface, the Internet, multimedia functions, satellite and video conferencing.

*IMT is strikingly simple - place it, plug it in and be ready for a complete interactive experience.*

inviting

IMT touchpoint cabinet with *stills* collaborative seating.

Combine easy-to-use technology with wood furniture - what could be more inviting?

IMT provides a solution that is all-inclusive, right from the integral racking housed in the credenza to the integrated components, touch screen and controls.

IMT invites collaboration within the workplace and takes it to a whole new level.

innovative

Surface mount power/cable cubby with laptop/component docking (BA & CI models)

Quick media LCD touch panel preprogrammed for function selection and docking features (DI models)

Professional series LCD Monitor

Glass overlay panel with DVI™ (Digital Vision Touch) from SMART technologies

SMART

SMART Meeting Pro™  
Software.  
Intuitive notation,  
content capture +  
sharing capabilities

ICI - Integrated Component Interface for easy access and expandability of components or connections: HDMI, DVI, ViaCon, Cable, Video, Audio, network and power

Pencil tool with single touch capability for electronic white boarding and content capture

External sound system

Integrated HD video conferencing package with pan and zoom capability (VE) and static camera (VF)

IMT brings together leading, integrated technology products that enable quick and simple use. IMT is designed so that it can be easily updated to incorporate additional technology products, making this unit an instant hit with innovative IT professionals and many more.

*Spent time collaborating on your business rather than wrestling with ineffective technology.*
